The candidates will be sorted from first to last, based on the percentage of preferential votes each candidate earned in their respective administrative district. In the event that two candidates receive the same number of preferential votes, the candidate who is older will advance. If the candidates receive the same of preferential votes and are the same age, the winner will be determined by a "coin-toss."

The distribution of seats for the winning candidates will be determined with the highest vote getters from the top of each list. The first seat will be allocated to the candidate who receives the highest percentage of preferential votes and the second seat to the second-ranked candidate on the list and so on.

The seats will be distributed based on the following:

-Seats in each district will be filled by winning candidates for a certain sect until the quota is complete. Once the quota is complete, the candidates who did not earn a seat will be eliminated.
